Kudos from last night's presentation (I will forward in a moment). Alice told me that she and Ray felt it was a really good exchange of information. They were scheduled to go for 45 minutes but the crowd of 25 to 30 environmental commissions had a lot of questions so it ended up going for an hour and a half.

FYI – just so you know I wasn't making it up – I think they were pleased too.

Thanks for sending the presentation.

And special thanks to you and Ray for making the trip to Verona last night to speak to the group of environmental commissioners and others.

One of the participants told me later that your presentation was so clear that she felt she finally had a grasp of the issues and the facts. She was one of the group who had already heard presentations by the cooperating parties and an environmental group, so I hope that you are as pleased as I am that your presentation was both informative and useful for those present.

Thanks again - and thank Ray for me too, because I don't see to have his email.

Sandy
